## WORD THANK

Before fairy, Ask for Okay permission send word have a cold thank you foot wall arrive lecture pellets direction guide TS. Đoàn Phong Tùng end love according to close and direction guide from phase paragraph head arrive last of things judgment. These time settle listen and give go out idea ants end love, deep sharp belong to teacher Satisfied help for production Products Okay cabbage good Go these defect point also like elevate range go up these its strong point.

Send word have a cold thank you next the copper Karma and receive religion in labour ty Paditech Satisfied always transmit next these horny passionate about, hi hope and heat blood. These terrible experience learn Okay from every People To be enter price, But close contribute about thing drawing, about set next way play belong to the team Five Lien mandarin Satisfied contribute part create one product Products complete good, matter quantity than. Thing judgment This is a project I participated in developing while working at the company and I was also allowed to use this product for my graduation project. This product was But expect wait belong to all People, Are not only stop again live one DATN but still Is one product Products Have potential power broadcast develop and bring again these profit useful set real give company .

Last but not least is the role of relatives and friends, who have always supported you from the beginning. People who gave encouragement in difficult times and were always ready to help.

## SUMMARY TURN OFF NOI DUNG THING VERDICT

Together with the broadcast develop shared belong to labour turmeric pine believe above position gender Satisfied and in progress contributes somewhat to solving many problems in life with much more real effectiveness and higher applicability. As we know, besides development belong to labour turmeric pine believe then the go out life belong to Internet Satisfied contribute part very big give the development of scientific and technological revolution. Along with the development of information technology above position gender, live Vietnamese Male branch Labour Turmeric Pine Believe although still young young but fast degree broadcast develop rather strong Satisfied and in progress gradually Okay response use in much field area of the economy, society, education, etc. . . contribute to promoting social development.

In this context of an increasingly hectic pace of life, people are especially concerned heart arrive job love commercial electricity death. With the go out life belong to the Website sell row Online, all People Have can buy all rank row chemistry all place all at the time but Are not need must deliver the item in person.

Faced with that reality, I chose the topic: " **ANALYSIS, DESIGN AND BUILDING A CAFÉ CHAIN MANAGEMENT WEBSITE** " to help users easily manage a chain of coffee shops.
